🏠 Professional Summary

Frontend Developer with 3+ years of experience building responsive web apps using React.js, JavaScript (ES6+), TypeScript, and Tailwind CSS. Skilled in translating UI/UX into modular components with 95%+ mobile responsiveness. Familiar with Next.js, Firebase, and Node.js, with growing backend skills in Python (Flask) and API integration. Comfortable with Git, agile workflows, and performance optimization. Currently exploring AI tools like LangChain, Jupyter, and GraphQL.

🧠 Technical Skills

Frontend Development: ● ● ● ● ●

React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Responsive Design, Mobile-First UI, Next.js

Backend & APIs: ● ● ● ● ●

Node.js, Express.js, Python (Flask, Data Pipelines & Automation), RESTful API Integration, Firebase (Auth & Firestore)

Tools & Platforms: ● ● ● ● ●

AI/ML Tools (Learning): LangChain, Jupyter Notebook, Cohere API, Basic AI Prompt Engineering

Dev Tools & Platforms: ● ● ● ● ●

Git, GitHub, Chrome DevTools, VS Code, Vercel

Development Strengths:

Performance Optimization, Component Reusability, Clean Code Practices, Debugging, CI/CD Awareness, Agile Collaboration, Cross-Team Communication

📁 Professional Experience

Freelance Frontend Developer (Remote) | Jan 2022 – Present

- Developed responsive web apps using **React.js**, **TypeScript**, and **Tailwind CSS**, serving 500+ users.
- Built 10+ reusable components, reducing dev time by **20%**.
- Improved load speed by **15%** via lazy loading and image optimization.
- Integrated RESTful APIs using TypeScript and **Axios**, reducing bugs by **10%**.
- Created backend functionality using **Node.js** and **Express.js**.
- Delivered 5+ projects in remote teams using **Git**, with zero merge conflicts.

📜 Certifications

Intro to Web Development (HTML/CSS/JS) 
Coursera – 2024
Semantic HTML, responsive CSS, and JavaScript interactivity.

AI For Everyone, Andrew Ng | Coursera (2024) 
AI use cases, business impact, and ethical considerations.

Generative AI for Everyone | Coursera (2025) 
Core LLM concepts, prompt design, real-world AI app development.

Python Project for Data Engineering | Coursera 2025 
Data wrangling, ETL pipelines, and automation using Python

🎓 Education

University of Science and Technology, Bannu
Bachelor of Science in Physics
2020 – Present (Expected 2025)

- Developed analytical and problem-solving skills with logical reasoning through coursework and labs.

Diploma in Information Technology
Khyber Pakhtunkhwa Board of Technical Education, Peshawar

- Completed core training in software tools, programming fundamentals, and IT systems.

🧩 Personal Projects

Hoodie E-commerce website
HTML, CSS, JavaScript, Tailwind CSS | 2025

- Built a fully responsive online store with **cart functionality**, **dark mode**, and **localStorage-based state**.

Real Estate Landing Page 
React + Framer Motion

- Designed a mobile-first real estate site with smooth **scroll animations**, **modular components**, and a polished UI.

AI Prompt Tool
React.js, Tailwind CSS, Cohere AI API

- Developed a tool that uses **AI APIs** to generate marketing and content prompts, allowing users to **edit**, **refine**, and **copy** text.

🧩 Personal Skills

Problem Solving • Critical Thinking • Fast Learner • Self-Motivated • Client Communication
